

Wilf Callaghan Big Winner

Polio Campaign Aided By Legion-Lions Bingo

Almost 300 persons sat down to play bingo last Friday night at the Armouries, fairly sure that they would go home with no more than the effects of two hours spent on hard chairs but with the knowledge that playing bingo was an enjoyable way to donate to the polio campaign.

To most that did happen, but the Vulcan Legion and Lions Clubs who sponsored the event were able to materially enrich the lives of 15 players with various types of merchandise and a total of \$200 in cash.

Scant minutes after play began Beth Wilson of Kirkcaldy binged to take an overnight suitcase and the evening quickly progressed down through the standard, L and X varieties of the game to the final blackout bingo worth \$150. Wilf Callaghan of the Vulcan district, who had previously been tied and beaten out by Dale French of Kirkcaldy for a set of table lamps, finally hit the right combination and took home the \$150.

Included in the many who were probably close to a full card when Mr. Callaghan called out, was Matt Flikweert, who split last year's top money with another contestant. He was seated by Mr. Callaghan and had only one space uncovered.

The winning list was made up of Beth Wilson, Kirkcaldy, (Overnight Case); J. McNairland, Vulcan, (all Metal Ironing Board); Phyllis Erickson, Vulcan, (Soft Drink Cooler); Mrs. Ruby Scott, Vulcan, (Garbage Can); Clarence Mote, Ensign, (Electric Popcorn Maker); McIntyre, Brant, (Salad Bowl and Spoon); Mrs. Bruce White, Vulcan, (Copper Cannister Set); Mrs. W. Scotney, Vulcan, (Vanity Stool); Andy Broere, Vulcan, (Barbecue Set); Dale French, Vulcan, (Table Lamps); Mrs. Bruce Palk, Champion, (Cocktail Glasses); Mrs. Ted Howlett, Ensign, (Barbecue Outfit); Mrs. Bill Holton, Vulcan, (Kitchen Swivel Stool).

The \$50 Blackout Bingo was won by Mrs. Mike Orchard of Vulcan.

Harris Matlock of the Legion, who announced events, gave thanks to the Lions Club for their co-operation in the Polio Bingo and particularly to Ivan Haga, Evan Munro and Evan Williams who operated and called the games, and to those helping at the door and ushering.

Legion Bingo chairman Charlie Fulton was introduced and thanked for his time and effort in the venture as was Jim O'Reilly, president of No. 21 Branch of the Legion.

BELATED ALARM

More and More people in the financial and business world are making speeches and issuing statements and publishing advertisements pointing out the evils of inflation. Some of these people perhaps can be accused of being Johnny-Come-Latelies, but at least there is now a more widespread alarm than previously.

The people who know most inflation are people who are trying to live on private incomes and pensions, which seemed adequate, and even generous, only a few years ago. They knew about inflation even if they did not know the meaning of the word. In this respect, they may be like many people who know a disease by its colloquial name and who are mystified when the medical man goes to the Greek for a word for it.

Other than the direct sufferers, the public-at-large is doing little or nothing to bring about a cure, although only in the hands of the public-at-large is there a cure. Everyone is against inflation just as every godly person gives lip service to the Ten Commandments.

Each person has a different remedy for high prices. The life insurance salesman's advice is that the insured should have more insurance to provide for higher prices. The fire insurance salesman says that the fire policy should march upward with the rise in building costs. The labor unions say that they must have higher wages to offset higher prices although the employer can show beyond argument that higher prices are made necessary by higher wages. Taxes become higher because governments proceed with public works to provide employment for union and other workers who have got higher wages because there are higher prices.

Government is blamed for both higher taxes and higher prices, but government is of the people, by the people and for the people. The public-at-large could reverse government policy quickly. But for government to try a reversal before there is public demand for it would result in a change of government. The men and women in office certainly don't want that.

PROFIT ON

FLAX

YOU CAN MAKE UP TO \$7.00 PER ACRE MORE!

Actual field tests show how your net profit per acre of flax is boosted by the use of Elephant Brand Fertilizer.

In the table below, note that the increased profit figure takes the cost of fertilizer into consideration. An increased profit of over \$7.00 per acre is certainly worthwhile.

Fertilizer per acre 50 lb. 11-48-0 (Cost \$2.70)*

Increased yield per acre 4 bu. (worth \$10.00)

YOUR INCREASED PROFIT PER ACRE \$7.30

OR \$730.00 ON 100 ACRES OF FLAX

* Fertilizer cost figures per acre are approximate.

Your net profit per acre — your profit after you've deducted the cost of growing the crop — gets a real boost from Elephant Brand Fertilizer! This applies to any crop . . . any soil. Your Elephant Brand dealer is shown below — contact him today!

The Grades 1 to 4 rooms of the school sponsored a program and bake sale and tea on Thursday afternoon and approximately \$35 was raised to send to the Red Cross.

The program opened with the singing of "O Canada," followed by a choral speech, "If I Met" by Grade 1; a song, "Birdies' Ball" by Grade 3 and 4 and a choral speech, "I'm Hiding"; Grades 1 and 2 then sang, "Mary Had a Little Lamb," and a few Grade 1 students did "Rub a Dub Dub"; the grades 1 and 2 sang, "The Old Rugged Cross" followed by a hand play, the "Suns' Sister" and a song, "See the Robbers"; Betty Cockwill gave a recitation and Grades 3 and 4 room did a program on "Safety." Other songs were enjoyed and the Grade 3 and 6 room did the "Alvin's Easter Song," which bought the program to a close.

The bake sale followed with many good looking pies, cakes, etc., being for sale. At 1:00 o'clock another sale of candy by Mrs. Ann DeWitt's room helped boost the proceeds. The mothers then went up to the lunch room for tea. The teachers wish to express their sincere thanks to all who assisted them in making the afternoon such a success.

COME, HEAR AND DO
Come, I pray you, and hear what is the word that cometh forth from the Lord.

And they come unto thee as the people cometh, and they sit before thee as my people, and they hear thy words, but they will not do them: for with their mouth they show much love but their heart goeth after their covetousness.

And, lo, thou art unto them as a very lovely song of one that hath a pleasant voice, and can play well on an instrument: for they hear thy words, but they do them not.

—Ezekiel 33:30-32
Jesus said that three things are needful in Luke 6:47-49: Whosoever COMETH, HEARETH AND DOETH my sayings.

The Importance Of Pedigreed Seed

Seed drill surveys conducted in Alberta by the Field Crops Branch in co-operation with the Plant Products Division Laboratories show that many farmers are planting seed that should be rejected for seeding purposes. These surveys show that many farmers are losing money every year by planting non-recommended varieties; seed with low germination and seed that is polluted with weed seeds.

Thinking farmers are ensuring better quality crops and higher yield by sowing pedigreed seed — registered or certified. This seed assures the purchaser of: (1) Varietal identity, (2) Varietal purity, (3) High grade standards — high germination, high level of freedom from seeds of other crops and weed seeds and treatment against disease.

Pedigreed seed, tagged, registered and certified, may be obtained at reasonable prices from seed and elevator companies in Alberta. Good seed doesn't cost — it pays!

Published in the interest of the farmer by the Alberta Branch of the Canadian Seed Growers' Association and the Western Branch of the Canadian Seed Trade Association.

To the Editor of The Advocate,
Dear Sir:

HEIL FARMERS OF THE VULCAN COUNTY

Rumors are that you contemplate some \$84,000 remuneration to some organization to smoke up this summer's hail clouds, with no guarantee that you won't get halled out.

I wish the privilege to put in a bid for hail suppression in the County of Vulcan which amounts to only \$20,000. I will agree to pray continuously through all the daylight hours of the hail season (about three months duration), using a loud speaker if you so insist; reserving for myself the privilege to incorporate in my supplications just one sentence — "Not my will O Lord but Thine be Done." It pleases me to advise you that God is still running this Universe although competition is becoming very strong throughout this planet.

Considering the cost of both these methods for security, I strongly advise the County to buy 3,000 corn cob pipes, then give a two-week course to all the children in the County on how to fill, light and smoke them. During the hail season every family in the County could fill these new pipes with low grade tobacco, spread out over the fields, light up, and create the biggest D... smoke cloud that creation ever saw.

Nobody ever saw a smoke cloud hail — the idea sounds reasonable, does it not?

—Grant Mallory, Kirkcaldy.

ATTENTION GRAIN GROWERS!

Be sure your seed samples are correctly addressed! District Supervisor L. B. Goodall of the Plant Products Division, Canada Department of Agriculture, reports unnecessary delay in receipt of seed samples for testing and a corresponding delay in getting results back to the sender.

Although the district office and seed laboratory moved last summer to new quarters in the Federal Building in Edmonton, many samples are still being mailed, in error, to the old address in Calgary.

Seed samples for testing and communications to district office should now be mailed to Plant Products Division, Canada Department of Agriculture, 873 Federal Public Building, Edmonton.

SCHOOL TEXTBOOKS in oversized print may be loaned free of charge from the Alberta Department of Education to help students with defective eyesight continue their studies. The service was initiated in 1951, mainly to meet the needs of smaller communities whose school boards are unable to

provide the costly texts.

Majority of sight-handicapped students in Alberta attend special classes in the Edmonton and Calgary school systems. Edmonton has two sight-saving classrooms, Calgary one. These school boards receive an annual grant of \$2,500 per special classroom, in addition to re-

gular government grants. School boards of other areas purchase their own magni-type textbooks to fill specific needs. When student users progress to a higher grade, the original set of books may be exchanged with the Department of Education library for stock on hand.
